

Public Speaking

Don't
make it
too long

Or too
short

Be prepared and own
your space, take
your time, it's not
a race.

Remember to smile.

Be prepared and own your space,
Take your time it's not a race.
Grab their attention it's very important,
You could add jokes for their amusement.
Divide the room into three,
It will make it simpler you will see.
Make your voice loud and strong,
Don't make it too short or too long.
Don't jumble your words to a pile,
Have fun and above all remember to smile.
